Gentlemen:

According to our records, the subject wells all have gas pipeline connections; however, they did not report any production during the month of October.

Said wells have been placed in the Burton Flat Morrow Gas Pool, which as you know is a prorated pool. Therefore; when they are put back on production and this office is so notified by Notice of Connection or re-connection, an allowable will be assigned.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District II
