17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Report of Operations for November and December.

The well was shut-in for a two week period following swabbing in order to allow sufficient pressure to build up to blow the well down. The well was then blown down in an attempt to unload water & start compressor. An AFE is being prepared to squeeze off existing perms and open additional Strawn zone. A C-103 will be filed shortly to cover this intended work.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
