We are sending our test results and pressures on this well that was done in March 1993. We are still in the process of getting a gas sales line. This is a shut in gas well and we would like more than a 3 month extension.

The well has tubing and a packer set in it.

3-11-93 - TP - 1650# Casing Pressure 300#.

The well is in sound condition at this time. We will meet your representative at the time you set with gauges and check pressures.
