13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to Marathon Gas Plant shut-down at Indian Basin, we are requesting flare approval from 04-15-96 through 04-22-96.

We will flare +/- 2 MMCFPD during this period of time.

We are requesting flare approval rather than shut-down of this well since this well will die and not be restorable to production.
