If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Siete Oil and Gas Corporation respectfully requests permission to lay a surface salt water disposal line to connect our Indigo Federal #1 to Collier Petroleum's Russell N. & S. Battery. The water line will extend approx. 4000' and will consist of 2" R7 polyurethane pipe. We will place at our location a 1" meter, centrifugal pump, motor, check valve & other assoc. equipment. The system will be in use year round. It will be carrying approx. 30 BWPD with a operating pressure of 30 psi. Attached is a topographic map showing the route of the proposed water line.

14. I hereby certify that the foregoing is true and correct
