Eddy County, New Mexico
Located 4 miles Northeast of
White City, New Mexico

RECEIVED

MAR 2 - 1978

U.S. GEOLOGICAL SURVEY
ARTESIA, NEW MEXICO

1. EXISTING ROADS

Refer to Exhibit "A" which shows all roads in the general vicinity of the well site. From White City go 4 miles north on U.S. Highway 62. Exit Highway 62 west onto a proposed 650' x 12' lease road to the proposed well location.

2. PLANNED ROADS

See Exhibit "A" for planned lease road. At the point where we will exit U.S. Highway 62 onto the proposed lease road we will install a cattle guard in the existing fence. The 650' of planned new road will be covered with compacted caliche

3. LOCATION OF EXISTING WELLS

The nearest production is located 2500' north. There is also production 1 mile southeast and 1-1/4 miles south southwest. Refer to Exhibit "A".

4. TANK BATTERIES, PRODUCTION FACILITIES AND LEASE PIPELINES

There are no tank batteries, production facilities or lease pipelines on the lease. If production is encountered, tank battery and production facilities will be located on the east end of mat and fenced.

5. WATER SUPPLY

Water will be trucked from the nearest commercial source.

6. CONSTRUCTION MATERIAL

Caliche will be obtained from an existing pit located in the SW/4 of Section 16, T-24-S, R-26-E, Eddy County, New Mexico, and will be purchased from the BLM by the dirt contractor. Construction material will be hauled over existing road to the proposed new road to drill site. Refer to Exhibit "A" for location of caliche pit and haul road.
