

6-10-81

We don't have a C-103 showing
the approved P&A for 1A 32-245-27E

To: Richard Sanchez

As of this date the plugging on this well has not been approved.

The date 7-17 was the date we received the C-103 stating the well
had been P&A and was mistakenly reported as the date approved.
