

SURFACE USE AND OPERATING PLAN

Attachment to Form 3160-3
Devon Energy Corporation
Todd "27" Federal #1
330' FSL & 330' FEL
Section 27-T23S-R31E
Eddy County, New Mexico

1. Existing Roads:

- A. The well site and elevation plat for the proposed Todd "27" Federal #1 are reflected on Exhibit #2. It was staked by John W. West Engineering Company, Hobbs, New Mexico.
- B. All roads into the location are depicted in Exhibit #3. State Highway 128 will be used to access the location. No upgrades to roads other than the access into location from State Highway 128 will be necessary.
- C. Directions to location: Travel west-northwest from Jal, N.M. approximately 35 miles on State Highway #128 to County Road #798, just into Eddy County from Lea County. Continue ± 1.8 miles west-northwest on State Highway 128 to proposed Todd "27" Federal #1 lease entry road. Turn right (east) onto the lease entry road. Go ± 0.33 miles to location.

2. Proposed Access Road:

Exhibit #3 shows the ± 0.33 miles of new access road to be constructed from State Highway 128. It will be constructed as follows:

- A. The maximum width of the road will be fifteen (15) feet.
- B. It will be crowned and made of 6 inches of rolled and compacted caliche. Water will be deflected, as necessary, to avoid accumulation and prevent surface erosion.
- C. Surface material will be native caliche. This material will be obtained from a BLM approved pit nearest in proximity to the location.
- D. The average grade will be approximately 1%.
