**ATTN: J. Denise Leake**  
**RE: Shut-in Notice for the Remuda Basin State #10. Located in Unit M,  
Section 30, Township 23 South, Range 30 East, Eddy Co., NM.**

Dear Miss Leake,

In reference to the above well, forms C-104 (Request for Allowable and Authorization to Transport Testing Allowables) are being returned to you-unapproved. Due to that fact that we have been unsuccessful in having Texaco respond in a timely matter with this and regulatory issues for other wells, **it is ordered that the Remuda Basin State # 10 well is to remain shut-in until compliance on all regulatory issues are met.** The following is a list of items that the OCD has not yet received for this particular well.

- Notorized well deviation survey report.
- Complete set of electric logs run on well.
- C-103 sundry notices.
- C-105 completion report.

Please feel free to contact me about this matter if you have any questions.

Respectfully Yours,

Bryan G. Arrant  
District II Geologist
