Dear Operator:

On December 28, 2001 I sent you a letter notifying you of the violation of NMOCDD Rule 103 regarding the incorrect information on the well sign for the **Gourley Federal Com #20**. The well sign reflects information contained in a drilling permit which was cancelled in 1999.

To date this office has had no response from you and an inspection of the location on January 28, 2002 indicated that the information had not been corrected on the well sign.

Please be advised that this well must be brought into compliance by **February 18, 2002** to prevent additional enforcement action.

Failure to comply with the Notice of Directive **will** result in an application for an order to show cause why the bond should not be forfeited, the well plugged and/or civil penalties assessed.

Respectfully,

Gerry Guye
Compliance Officer
Oil Conservation Division - District II
