17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

Alpha Twenty-One Production Company is in the process of aiding El Paso Natural Gas Co. in the acquisition of the Washington Ranch Morrow field to be used for a gas storage reservoir. The Cities 3 Federal #3 well is completed in a shallower horizon (Delaware Formation). The projected completion date for this project at this time is July or August of this year. The Cities 3 Federal #3 had good shows of oil and gas in the core analysis however completion resulted in a large amount of water. Before we P&A this hole we would like to take a good look at other possible completion techniques that could be used.

With the current gas storage project on this property and our desire to try to complete a commercial well at this location we respectfully request that an extension of time be granted to September 30, 1981 in which to put well to beneficial use of plug and abandon.
