

## MULTI-POINT SURFACE USE AND OPERATIONS PLAN

POKER LAKE UNIT NO. 52

660' FNL, 1980' FWL

Sec. 33, T25S, R31E

Eddy County, New Mexico

OIL & GAS  
U.S. GEOLOGICAL SURVEY  
ROSWELL, NEW MEXICO

This plan is submitted with the Application for Permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction, activities, and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to rehabilitate the surface after completion of operations so that an appraisal can be made on environmental effects.

1. Existing roads including location of exit from main highway Exhibit "A" is a portion of a map showing existing roads. The location is reached by turning west from Jal on Hwy 128 for approximately 38 miles, halfway between mile marker 22 & 23. Turn south on paved road for 10 miles. Turn west on El Paso Nat. Gas pipeline road and continue west for 7½ miles. (There is a ranch house due south). Turn north for 1 mile then northeast 1 mile. (There should be a pond here). Location is 3000' northeast.
2. Planned access road Exhibit "A" shows the planned access road into Poker Lake Unit #52. This road will be 12' wide and approximately 3200' long. The road will be constructed of watered and compacted caliche with one cattlequard, no turnouts, gates, or culverts are anticipated.
3. Location of existing wells Exhibit "A" shows all surrounding wells.
4. Location of tank battery and flow lines If a commercial well is obtained, a production battery will be constructed on the southwest corner of the location: refer to Exhibit "B"
