If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Yates Petroleum Corporation wishes to move this well from the approved footages of 660' FSL and 330' FEL to the above footages. A new C-102 is attached. The route of the road will change and is marked in green on the attached map. It will be approximately 250' in length. Yates would also request that an overhead powerline be included as shown on the map and marked in orange. The powerline will be approximately 300' in length. Also, Yates requests that a 3" O.D. flowline on the surface to follow the road from this well to the tank battery. The route is marked in purple on the map and is approximately 2500' in length.
