

MULTI-POINT SURFACE USE AND OPERATIONS PLAN
PAGE 4

8. ANCILLARY FACILITIES. None required.

9. WELL SITE LAYOUT.

A. Exhibit "D" shows the well site layout with general dimensions for the location and reserve pit.

1. The reserve pit will be lined.

10. PLAN FOR RESTORATION OF THE SURFACE.

1. All pits will be back filled and all waste material removed. Land adjacent to drilling pad will be levelled.

2. Re-vegetation and rehabilitation to be completed as per BLM recommendations.

3. Prior to rig release, pits will be fenced and maintained until clean up.

4. Any oil in pit will be transferred to steel stock tank and separated and sold.

5. All clean up should be completed within 6 months of well completion.

11. OTHER INFORMATION.

1. The well location and access road is situated entirely in Section 9, which is Federally owned. We do not anticipate that additional right of way will be required.

2. No ponds, lakes, streams, water wells, or occupied dwellings exist in the area.

12. LESSEE'S OR OPERATOR'S REPRESENTATIVE:
