BLM approves federal wells in potash area so we do not have to worry about this.

STATE & FEE LEASES

Post to map and if within the potash area outlined on map or within 1 mile of that area do the following:

- 1) Make certain operator has filed a plat of the area showing the potash lessees for the area where the well is located as well as the 1-mile radius referred to.
- 2) Make certain operator has notified all of the potash lessees by certified mail of the APD. They must send copy of delivery notice to us since 20-day waiting period starts from delivery date.
- 3) Send letter to BLM and SLO advising them of this APD and request they advise if this location is within LMR or buffer zone.  
  
 BUFFER ZONE -- shallow well is 1/4 mile of LMR  
 -- deep well is 1/2 mile of LMR
- 4) If application is within LMR or buffer zone you must DENY it under R-111-P unless, there is a mutual agreement of lessor and lessees of oil & gas and potash interests. Copy of this agreement must be submitted with APD.
- 5) If application is outside LMR or buffer zone and no objection is received within 20 days from date of receipt by potash lessees of certified notice, the APD may be approved.

Re: Enron's James Ranch Unit #31  
1980 FNL & 1980 FEL Section 36, T22S R30E  
Eddy County, New Mexico

Dear Mr. Tower:

Western Ag-Minerals does not protest the location of James Ranch Unit #31. The stated location is outside of our LMR and allows for the appropriate buffer.

Sincerely,

Ben F. Zimmerly  
Mining Engineer

RE: James Ranch Unit No. 31  
1980' FNL & 1980' FEL, Section 36, T22S, R30E  
Eddy County, New Mexico  
James Ranch Prospect

Dear Sir:

IMC Fertilizer, Inc. has received your notification that Enron Oil & Gas Company intends to drill James Ranch Unit No. 31, 1980'FNL & 1980'FEL Section 36-T22S-R30E. IMC Fertilizer has no objection to Enron drilling James Ranch Unit No. 31 due to the fact that it is outside IMCF's LMR and buffer zone.

The current LMR and the buffer zone are determined from the best available information. As more information becomes available, the LMR can change and may be modified and adjusted. This is reflected in the yearly update of the LMR. The relationship of any well location relative to the LMR can change. Therefore, please consider the "objection offered" or "no objection offered" to a well location to be valid for one year only. If you are still considering a well location that a potash operator has or has not objected to more than one year prior, notify us again at that time so we can make the decision on information current at that time. Do not consider a "no objection offered" or an "objection offered" decision to be permanent.

IMC Fertilizer, Inc. submits this letter in lieu of the forms requested.

Sincerely,

Dan Morehouse  
Supt. Mine Engineering & Construction
