Re: Well Locations in Section 36, T22S R30E
Eddy County, New Mexico

Dear Hansen:

Wells drilled in Section 36, T22S R30E, requiring a 1/4 mile buffer with locations in the NE 1/4, SE 1/4, or 920 feet or more from the west line in the SW 1/4 will not be protested by Western Ag-Minerals Company.

Any well locations in the NW 1/4 will be protested because they will result in further loss of potash reserves.

If I can be of more assistance or if you have any questions don't hesitate to call. I can be reached at (505) 887-3476.

Sincerely,

Ben F. Zimmerly
Sr. Mining Engineer
