13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The well is currently completed in and producing from the Basin-Dakota Gas Pool. Enervest proposes to complete the Blanco-Mesaverde Gas Pool and downhole commingle the production from these intervals. Pre-approval status for the Basin-Dakota and Blanco-Mesaverde Gas Pools was authorized by Order No. R-11363. In support of this request, Enervest states that:

Pools to be downhole commingled: Basin-Dakota & Blanco-Mesaverde Gas Pools
 The proposed commingling will not reduce the total remaining production's value
 The well is currently perforated in the Basin-Dakota Gas Pool from 7,176'-7,404'. Mesaverde proposed perfs: 4,924'-5,338'
 Production allocation for the two pools will be determined by the subtraction method
 Interest ownership between the pools is common. No notification is necessary

The Bureau of Land Management has been notified in writing of this application
