Et All,

Ok thanks, as I mentioned I have already given it a new incident number # NCS1725738890 I will also go ahead and give it a new 3RP # 1053.

I won't sign the attached C-141 I will drop a note on it that we accepted it for record and attach this email correspondence. So if I understand correctly the remaining soil impacts are being addressed via SVE and the ground water plum is being monitored correct?

Thanks

Cory,

I was able to dig through Jeff Peace's old email and found that a C-141 was submitted to Glenn Von Gonten. See below.

Also attached is the excavation info for the site. Please let me know what else you need from me.
