**Subject:** RE: (Extension Request) Federal 18 #004 SWD (30-025-01671) 11-29-2018 1RP-5302

Good morning Becky,

The OCD grants Concho a one month extension until March 27, 2019 to complete the remediation work and prepare and submit a closure report to the OCD.

This approval can be found in the 1RP-5302 file online.

Thank you,

Vanessa Fields

To Whom It May Concern,

Under the new spill rule a work plan or closure report is due for the above release on 2/27/19. Currently, TRC on behalf of COG is working on this excavation. We are waiting on analytical results so that we can proceed with backfill activities. As soon as we obtain results indicating that constituents of concerns are below Table 1 concentrations the excavation will be backfilled and a closure report will be submitted. COG is requesting a one month extension until March 27, 2019 in order to complete the remediation work and prepare a closure report.

Please let me know if you have any questions or concerns.

Thank You,

Becky Haskell

\*\*\*\* External email. Use caution. \*\*\*\*

Ms. Grant:

1. Dated, geo-referenced photo documentation for verification that the initial response activities have been employed to contain the release is requested.
2. Per 19.15.29.13 NMAC, regulations of corresponding agencies supersede NMOCD's.

The 1RP for this incident is

5302	1/28/2019	A	COG	Federal 18 #004 SWD	30-025-01671	19S-33E-18H	11/2
------	-----------	---	-----	---------------------	--------------	-------------	------

Please remember to include this 1RP identifier to all communications. Delineate and remediate per regulation NMAC 19.15.29 available at <http://164.64.110.134/parts/title19/19.015.0029.html>. Mind the timelines for submittal of requisite information.

Please be advised that NMOCD recommends a completed site characterization/delineation report be reviewed or approved by NMOCD BEFORE any significant remediation work towards closure.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Ms. Hernandez/Ms. Tucker,

Please find the attached C-141 for your consideration. Also, attached is the calculation sheet to determine the estimated release volume. The liquid lost estimate is based on the spill dimensions, estimated depth of fluid (wet soil depth) and type of formation. The spreadsheet will calculate the volume lost in the ground and does not include the recovered amount in the calculation. The calculated volume in the ground and the volume recovered were added together and reported on the C-141. If you have any questions or concerns please do not hesitate to contact me.

Thank you,

**DeAnn Grant**
