August 17, 1944

Mr. Roy Yarbrough  
Oil Conservation Commission  
Hobbs, New Mexico

Re: Noland & Bullock - \$2500 - NESE 24-29N-11W -  
Amer. Emp. Ins. Co. Filed 10-24-38.

Dear Roy:

The approved C-102 for the plugging of the well covered by the above captioned bond which arrived today evidently has a mis-description as to 40-acre tract -- it designates SWNE whereas the bond and the C-101 both show NESE.

When the C-103, report of plugging well, is filed with you the correct description should be noted in order that there can be no doubt as to the release of the right bond for the particular well. Undoubtedly the description in the notice of intention to plug was a clerical error inasmuch as the operator in question does not have any other well under bond insofar as the Commission's records reflect.

Very truly yours,

John M. Kelly  
Director
