13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The subject well has been inactive since January 2001. It is our intent to run slick line, tag and test the subject well within the next 30 days. If there is no fill across the perforations, we will follow up with a three day flow test. With positive results we will perform 30 day compressor test with trailer mounted compressor. Results will be used to justify economics of wellhead compression. Pending the results of this test, a further plan of action will be determined as to whether the well has Fruitland Coal potential. If no PC potential exist we will procedure to file procedure to plug and abandon.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
