13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

Please reference demand letter dated Feb. 27, 2004.

The original request to DHC the Picture Cliffs with the existing Fruitland Coal had been deferred pending results of similar-type work. These results indicate we can now go forward with the work as proposed. Prior to commencing operations, partner approval will need to be obtained (30-45 days) and the work will be prioritized into the rig schedule (est 2nd Qrt 2004)

Please approve our request for continued shut in status until the necessary approvals can be obtained and work accomplished. Should you have any questions please contact John Papageorge @ 281-366-5721
