☐ Production (Start/ Resume)

☐ Reclamation

☐ Recomplete

☐ Temporarily Abandon

☐ Water Disposal

☐ Water Shut-off

☐ Well Integrity

☒ Other Left out of

original APD.

13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Coleman Oil & Gas, Inc., would like to request permission to install a second line next to the four inch gas line. This line would be installed in the same ditch as the four inch gas line. Both lines would be made of the same material (polyethylene PE3408 SDR 7 with an internal yield of 264 psig) and would be adequately spaced and padded. The second line would be used initially for transferring produced water with the option as a second gas line at a later date if more capacity was required. This would reduce the amount of truck traffic to and from this well. The I.D. of this line will be either two or three inch depending on the initial production of this well.

14. I hereby certify that the foregoing is true and correct.
