13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Four Star Oil & Gas Company proposes to modify its previously filed and approved procedure to plug back the Blanco Pictured Cliff South and recomplete to the Basin Fruitland Coal. Instead of plugging the Blanco Pictured Cliff South, Four Star requests permission to commingle downhole the two pools. A bridge plug will be set at 2050 ft and will be drilled out upon completion into the Basin Fruitland Coal. Otherwise the procedure will remain unchanged.

In addition to support the proposed downhole commingling Four Star submits the following:

i) The NMOCD has previously approved the commingling of the two pools in NMOCD Order #11363.

ii) The two pools to be commingled are the Blanco (Pictured Cliffs) and the Basin (Fruitland Coal).
