13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Four Star Oil & Gas Company proposes to modify its previously filed and approved procedure to plug back the Blanco Pictured Cliff South and recompleate to the Basin Fruitland Coal. Instead of plugging the Blanco Pictured Cliff South, Four Star requests permission to commingle downhole the two pools. A bridge plug will be set at 2235 ft and will be drilled out upon completion into the Basin Fruitland Coal. Otherwise the procedure will remain unchanged.

In addition to support the proposed downhole commingling Four Star submits the following:

i) The NMOCD has previously approved the commingling of the two pools in NMOCD Order #11363.

ii) The two pools to be commingled are the Blanco (Pictured Cliffs) South and the Basin (Fruitland Coal).

*DHC 1492AZ*

14. I hereby certify that the foregoing is true and correct.	
Electronic Submission #29966 verified by the BLM Well Information System For FOUR STAR OIL & GAS COMPANY, sent to the Farmington Committed to AFMSS for processing by MATTHEW HALBERT on 05/25/2004 ()

**Additional data for EC transaction #29966 that would not fit on the form**

**32. Additional remarks, continued**

iii) The perforations are at 2240 - 2304 (Pictured Cliffs) and 2102 - 2212 (Fruitland Coal).

iv) The production will be allocated using the subtractive method.

v) Commingling will not reduce the value of the remaining production.

vi) Interests in the two zones are the same.
