or recompilation.				
On 05/17/2004, BP America Production Company submitted an application for permit to drill and complete the subject well into the Basin				
Dakota, produce the well in order to establish a production rate, isolate the zone, then add the Blanco Mesaverde and commingle				
production Downhole. APD Approved 06/10/04. BP now seeks NMOCD approval to Downhole commingle production in the subject well				
as per procedure on reverse side of this Form.				
The Basin Dakota (71599) & the Blanco Mesaverde (72319) Pools are Pre-Approved for Downhole Commingling per NMOCD Order R -				
11363. The working Int., Royalty and overriding royalty interest owners in the proposed commingled pools are identical, therefore no				
further notification of this application	n is required.	4		
Duadriatian is unamand to be allow	stad based on a fined non-			"B. L. 4. 1. 4. 41
Production is proposed to be allocated and complete into the Management				
and complete into the Mesaverde. The total well stream to establish the		performed on the complined	zones and Dakota ra	ite will be subtracted from
the total well stream to establish the	s Mesaverue rate.			
Commingling Production Downhol	e in the subject well from	the proposed pools with	not reduce the valu	io of the total remaining
production.	1649AZ		not reduce the valu	ie of the total remaining
