13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On April 30, 2003 BP was granted authority to downhole commingle the Aztec Pictured Cliffs and Blanco Mesaverde Pool and allocate production based on historical production. However, we have redetermined the allocation percentaged based on production changes in the Mesaverde due to adding pay in the Menefee portion of the Mesaverde Pool. Based on Menefee flow back rates and the incremental production that resulted from the pay add we have determined that the correct allocation should be 68% for the Mesaverde and 32% for the Pictured Cliffs.
