NMOCD Sundry notice dated 5/24/04 indicated the drilling reserve pit would be lined for drilling & completion. This sundry was submitted subsequent to the APD, which dated 3/26/04, to supplement the APD for NMOCD Rule 50 Compliance. Since the subject well is on a federal lease, we anticipated the BLM would require the reserve pit to be lined and so indicated in our C-103 form dated 5/24/04. The BLM approved the APD on 6/18/04 and deleted the reserve pit lining as a condition of their approval. We inadvertently did not modify our 5/24/04 sundry to reflect that the reserve pits would not be lined. This well is outside the established vulnerable area and NMOCD rules do not require the reserve pit to be lined.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
