13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We have not completed our work to deepen this well to the Gallup formation. At this time, we can not get a drilling rig to complete this work. We ask that the time to complete this project be extended again. It will most likely be one year before a drilling rig can be secured. If this is unacceptable, we will comply with your rules to be certain that the well presents no potential to damage offsetting production or ground water.
