12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

Devon Energy requests approval to install a 5-1/2" liner in subject well due to production decreases. We would like to rig up and clean well out to PBTD. We would then like to rig up a mud logger and drill 100' of the PC for a sump. Logs will be distributed upon completion of work. We will then clean wellbore and run a 5-1/2" liner in well and land production tubing in well. The well will then be turned to sales.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
