WEST KUTZ GALLUP

32. Additional remarks, continued

To ensure that the wellbore is plugged in accordance with BLM regs., we request BLM advise if the original approval is still sufficient or if we need to set a CIBP @ approximately 1420' and cap with cement to 1056' since a CIBP was in the wellbore at the time of the original approval.

The subject well has been placed on our rig schedule and we anticipate the plugging operations to begin and be completed by the end of the month.
