13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Operator Lance Oil & Gas Company Inc. respectfully requests a change in the Application to Drill on this well. The APD under "3. Pressure Control" states that "... BOP Equipment will include a kelly cock, floor safety valve and choke manifold rated to 2000 psi..."

Due to the length of the kelly cock in relation to the clearance in the derrick, and/or the availability of a kelly cock, it is not currently possible to utilize a kelly cock. Lance Oil & Gas Company, Inc. respectfully requests a waiver to eliminate the requirement of a kelly cock at the present time, and run a floor safety check valve in the drill string, at least until a kelly cock or Full Opening Safety Valve (acting as a lower Kelly Valve) is available and installed.
