DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)
The well was drilled at 5:00 P. M., May 4, 1952. On May 7, 1952, 9 1/8" casing was landed at 479 feet and cemented with 296 sacks of cement. Cement circulated to surface. Cement plug down at 7:40 P. M., May 7, 1952. At 8:00 P. M., May 8, 1952, casing and water shut-off were tested at 500 pounds for 30 minutes, with no drop in pressure. Forty-five feet of solid cement were drilled in bottom of pipe and water shut-off was again tested at 500 pounds for 30 minutes. There was no drop in pressure during this test and drilling operations were resumed.

* Copies of elevation plate attached. The elevation plate was not available for distribution at the time the Notice of Intention to Drill was submitted for approval.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
