13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date			
	ork). SEE RULE 1103. For Multiple Completions: At	ttach wellbore diagram of proposed completion	
or recompletion.			
Burlington Resources proposes to construct a workover pit. Based on Burlington's interpretation of the Ecosphere's risk ranking criteria, the			
workover pit will be a lined pit as detailed in Burlington's Revised Drilling / Workover Pit Construction / Operation Procedures dated November			
11, 2004 on file at the NMOCD office. Burlington Resources anticipates closing the pit according to the Drilling / Workover Pit Closure Procedure dated August 2, 2004 on file at the NMOCD office.			
duted Fuguet 2, 200 f on the di die 1440 e.p. office.			
On this well, a vent/flare pit may be the only pit that will be required. Under this circumstance, a portion of this vent/flare pit will be designed to			
	rill be lined, as per the risk ranking criteria.	, I
