As per our telephone conversation on the above date, enclosed please find copies of Forms C-104s for the referenced wells which apparently were not submitted at the time of the acquisition by American from Tesoro Petroleum Corporation.

Please note that we have attached approved Form C-104 for the 53 and 48Y which appear to be the same as the ones which we discussed.

If further information is required please contact either the undersigned or Bob Durbin at (505-822-3816) for clarification.

Gentlemen:

Enclosed please find the legal descriptions for the five (5) subject wells which American Exploration Company recently submitted applications to deepen in order to add more pay perforations.

We have requested Form C-102 (Well Location and Acreage Dedication Plats) for same from the surveyor, and will be forwarding this to you upon receipt. Hopefully, this will resolve whatever well location description discrepancies exist from the information available.

Please advise if this information is sufficient for formal approval of our applications to deepen these wells.

Very truly yours,

AMERICAN EXPLORATION COMPANY
