Surface Owner: ☐ State ☒ Federal ☐ Tribal ☐ Private (Name: _____)

Nature and Volume of Release

Material(s) Released (Select all that apply and attach calculations or specific justification for the volumes provided below)

<input type="checkbox"/> Crude Oil	Volume Released (bbls)	Volume Recovered (bbls)
<input type="checkbox"/> Produced Water	Volume Released (bbls)	Volume Recovered (bbls)
	Is the concentration of dissolved chloride in the produced water >10,000 mg/l?	<input type="checkbox"/> Yes <input type="checkbox"/> No
<input type="checkbox"/> Condensate	Volume Released (bbls)	Volume Recovered (bbls)
<input type="checkbox"/> Natural Gas	Volume Released (Mcf)	Volume Recovered (Mcf)
<input checked="" type="checkbox"/> Other (describe)	Volume/Weight Released (provide units) 240 BBLS Flowback fluid	Volume/Weight Recovered (provide units)

Cause of Release: The Federal B L #002 well had an observed completion hit from the N Alamito Unit #233H around 2:00am on June 24, 2019. Flowback water was observed to be released from the onsite flowback tank. Onsite fluid was removed, and the source of the release was stopped. Flowback fluid traveled offsite onto nearby wash Reference map of release attached. Epic Energy has currently installed oil booms at the end of the wash to contain any hydrocarbons in the event of a rain event. As well as in the process identifying an Archaeologist to perform an Archaeology study before any mechanical means can be utilized to remediate the affected wash area as required by the Farmington NM BLM Field Office. Epic Energy is currently investigation additional remediation efforts in order to mitigate the release.

Was this a major release as defined by 19.15.29.7(A) NMAC? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If YES, for what reason(s) does the responsible party consider this a major release? If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)? On June 24, 2019 Phone Notification of Major Release Operator called to report a 100+ barrel of Frac fluid over topped an AST around 2/3AM and flowed approximately .5 miles south in a dry wash. Operator indicated that they were securing the site and will send notification to OCD and BLM. June 25, 2019 Email Notice of Major Release Epic Energy is providing 24-hour written notification (verbal notification was made to Cory Smith District III office at 10:21 am this morning) of an estimated 100 BBL frac release due to the Federal B L #002 well have frac communication from nearby stimulation. The release traveled roughly ½ mile down an unnamed wash. All free liquids have been removed. No injuries nor illness were reported. An investigation is pending to determine the cause of the release.
---	---

Initial Response

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury

<input checked="" type="checkbox"/> The source of the release has been stopped. <input checked="" type="checkbox"/> The impacted area has been secured to protect human health and the environment. <input checked="" type="checkbox"/> Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. <input checked="" type="checkbox"/> All free liquids and recoverable materials have been removed and managed appropriately.
If all the actions described above have <u>not</u> been undertaken, explain why:
Per 19.15.29.8 B, (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
