13. Describe Proposed or Completed Operations

8/3/11 Burlington Resources tried to pressure test casing at 600#; pressure didn't hold. TOC is @ 6140'. Ran CBL & detected there is no cement between 6140'-4750'. Two different leaking zones were detected. Troy Saylers (BLM) & Brandon Powell (OCD) were contacted to request permission to set a cement retainer @ 5144' & squeeze 51bbls Neat cement to cover casing and annulus with 100% excess in order to isolate and remediate leak. Both Troy & Brandon concurred with this request and asked for a Notice of Intent and a CBL to be run after the remediation.

14. I hereby certify that the foregoing is true and correct.

Signed Dollie L. Busse Title Staff Regulatory Technician Date 8-5-11
