13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Epic Energy had a bradenhead Test Fail in 2017 due to casing pressure of 140 psi. Big Red Toll sealed the Wellhead by repairing the wellhead using a Teflon Sealant in 2017. 2020 Bradenhead test demonstrated 132 casing pressure and zero bradenhead, demonstrating the wellhead repair was successful and complying with 19.15.16.11.
