13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

In reviewing the documentation for this well, XTO has found that it was perforated in the Basin Fruitland Coal only and that forms C-104 and C-105 were submitted and approved for the Fruitland Coal only. NMOC website shows the Twin Mounds Pictured Cliffs for the well to be active and producing. Please change your records to reflect that this well is Basin Fruitland Coal.

*Twin Mounds PC is in "N" status*
