To Whom It May Concern:

ConocoPhillips will be drilling a sidetrack hole out of the currently producing Lindrith B Unit #31 in order to collect reservoir data. The data acquisition will help ConocoPhillips in analyzing the possibility of future development of strategic leases within the area. As per New Mexico regulations (19.15.7.16 NMAC) ConocoPhillips request that the C-105 and all accompanied data be kept confidential for 90 days before releasing any data to the public domain.

Please let me know if there are any question or concerns.

Sincerely,

BEN TOLMAN
