13 Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We completed a pay add on the above reference well from 8-2-11 to 9-6-11. During the paperwork process we noticed that some of the information on the sundry notices didn't match. This is a revision of how the wells was drilled back in 1955. This well was spud on 9-29-55. A 17 1/4" hole was drilled to 224'. On 9-30-55 13 3/8" surface casing was run to 217'. Pumped 250 sks of regular cement. Cement was circulated. Drilled a 11" hole to 3027' on 10-7-55. On 10-9-55 8 5/8" 32# casing was set at 3027'. Used 450 sks of regular cement. Lost returns at 2950'. Top of cement at 1250' (78.1%) fill. Drilled a 7 7/8" hole to a TD of 7505' on 11-10-11. Set 5 1/2" 17# casing at 7505'. Pumped 900 sks of regular cement. Found top of cement at 4130' (59.5%) fill. Tested casing to 1500 PSI. Test was good.
