13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including redamation, have been completed, and the operator has determined that the site is ready for final inspection.)

11-15-11: 1st delivered the Bisti Gallup 20-2 at 11:00 AM. Casing pressure was 1240 PSI and there was no tubing pressure. We are using a .625 orifice plate and the gas is flowing. It has 100 PSI differential and 100 PSI spring. Flowed gas for 1 hour. The clock was not rotating. Shut well in. Replaced clock and tried to flow the well again on 11-16-11 at 10 AM. Flow rate was 110 MCF with 1180 PSI on the casing and no tubing pressure.
