13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In reference to the Sundry dated 11-8-2011 to complete the Lower Gallup Sand. Due to muddy roads and wellsite surface conditions from recent heavy snow storms, it is currently not possible to do the recomple work without doing damage to the leasehold surface and equipment. Due to this, NOG is requesting a 30 day extention to allow the surface conditions to improve.
