If YES, To Whom? OCD - Brandon Powell via phone & email BLM - Kevin Schneider via voicemail & email Date and Hour - 2/26/08 - 9:00 a.m. Monica Johnson RCVD MAR 10'08 By Whom? Was a Watercourse Reached? If YES, Volume Impacting the Watercourse. OIL COMS. DIV. ☐ Yes ☒ No If a Watercourse was Impacted, Describe Fully.* DIST. 3 Describe Cause of Problem and Remedial Action Taken.* A ConocoPhillips Company employee discovered a produced water spill of approximately 112 BBL at the San Juan 32-8 Unit #244 on the morning of 2/25/08 due to a line break. The 3" water line from the tank to the transfer pump split due to freezing. Upon discovery, the tank and transfer pump were isolated by closing the valves. Describe Area Affected and Cleanup Action Taken.* All of the spilled fluids were contained inside the berm. A water truck was brought in to recover the fluids. All of the fluids were recovered, including an additional 8 BBL of snow melt. The flow line from the tank to the transfer pump will be replaced and put back into service. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
