Describe Cause of Problem and Remedial Action Taken.* **On October 21, 2010, a leak in the compressor discharge line was discovered resulting in an approximately 3085 MCF natural gas release. Upon discovery, the well was shut-in.**

Describe Area Affected and Cleanup Action Taken.* **The natural gas was released to the atmosphere. The discharge line is scheduled for repair; therefore no further action is needed.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
