NATURE OF RELEASE

Type of Release: produced water	Volume of Release: approx 17 bbl	Volume Recovered: approx 17 bbl
Source of Release: separator dump line	Date and Hour of Occurrence: unknown	Date and Hour of Discovery March 20, 2010: 3 34 PM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

RCVD MAR 29 '12
OIL CONS. DIV.
DIST. 3

Describe Cause of Problem and Remedial Action Taken.*

The water dump line from the separator to the BGT had holes in it near the BGT. Water was leaking through the holes and into the BGT cellar. The well was shut in and the dump line will be replaced.

Describe Area Affected and Cleanup Action Taken.*

The water in the cellar was pumped out and removed by a water truck, as was the remaining water in the BGT.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
