	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

There are two Sundry notices being filed, this is 2 of 2. We are asking for approval to start as early as the 25th of June 2012. We expect the Frac to take place around the first of July 2012. The workover should be complete by the end of the second week in July, 2012. We will perform a standard frac for this area and 2500 ft depth range in the Gallup. We would like to research this further and look at foam, water and recommended sand etc. The frac will have to be performed through a packer due to the squeeze job and casing hole repair. We will unset the packer after the frack and equalize pressure. The rig crew will swab the well back and then pull pipe. We will run a bailer to clean out the well bore ie. frac balls, sand and drillable plug debris. The well will then be placed back on production after tubing and rods are landed.

Notify NMOCD 24 hrs  
prior to beginning  
operations

Conditions of approval, if any, are attached. Approval of this notice does not warrant or certify that the applicant holds legal or equitable title to those rights in the subject lease which would entitle the applicant to conduct operations thereon.

Office

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212, make it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

W. M. Galloway Oil & Gas, LLC  
Tribal Lease: 14-20-604-1893  
Well: Ute Indians D #10  
Location: 790' FNL & 2045' FWL  
Sec. 23, T. 31 N., R. 15 W.  
San Juan County, New Mexico

3160

**Conditions of Approval:**

1. Within 30 days of the recompletion of this well, a Sundry Notice, Subsequent report must be filed with this office outlining the results of the workover. Include the new flowrates of oil, water, and gas. Venting of gas is not authorized without prior approval. The Sundry should also include a narrative of the casing repair and chart records of the pressure tests.
2. Notify Dan Rabinowitz at 970-385-1363 once you have determined the design of your frac to allow witnessing. The earlier you notify this office, the easier it will be for BLM witnessing. A minimum of 72 hours would be desired.
