PAPAMINGTON PIELD OFFICE am

### GENERAL INSTRUCTIONS

This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated on Federal and Indian lands pursuant to applicable Federal law and regulations. Any necessary special instructions concerning the use of this

form and the number of copies to be submitted, particularly with regard to local area, or regional procedures and practices. either are shown below or will be issued by, or may be obtained from the local Federal office.

### SPECIFIC INSTRUCTIONS

Item 4 - Locations on Federal or Indian land should be described in accordance with Federal requirements. Consult the local Federal office for specific instructions.

Item 13 - Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by the local Federal office. In addition, such proposals and reports should include reasons for the abandonment; data on any former or

present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise: depths (top and bottom) and method of placement of cement plugs, mud or other material placed below, between and above plugs: amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well and date well site conditioned for final inspection looking to approval of the abandonment.

### NOTICE

The Privacy Act of 1974 and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with information required by this application.

AUTHORITY: 30 U.S.C. 181 et seq., 351 et seq., 25 U.S.C. 396; 43 CFR 3160.

**PRINCIPAL PURPOSE:** The information is used to: (1) Evaluate, when appropriate, approve applications, and report completion of subsequent well operations, on a Federal or Indian lease: and (2) document for administrative use, information for the management, disposal and use of National Resource lands and resources, such as: (a) evaluating the equipment and procedures to be used during a proposed subsequent well operation and reviewing the completed well operations for compliance with the approved plan; (b) requesting and granting approval to perform those actions covered by 43 CFR 3162.3-2, 3162.3-3, and 3162.3-4; (c) reporting the beginning or resumption of production, as required by 43 CFR 3162.4-1(c) and (d) analyzing future applications to drill or modify operations in light of data obtained and methods used.

**ROUTINE USES:** Information from the record and/or the record will be transferred to appropriate Federal, State. local or foreign agencies, when relevant to civil, criminal or regulatory investigations or prosecutions in connection with congressional inquiries or to consumer reporting agencies to facilitate collection of debts owed the Government

**EFFECT OF NOT PROVIDING THE INFORMATION:** Filing of this notice and report and disclosure of the information is mandatory for those subsequent well operations specified in 43 CFR 3162.3-2, 3162.3-3, 3162.3-4.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to evaluate proposed and/or completed subsequent well operations on Federal or Indian oil and gas leases.

Response to this request is mandatory.

BLM would like you to know that you do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

## **BURDEN HOURS STATEMENT**

Public reporting burden for this form is estimated to average 25 minutes per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to U.S. Department of the Interior, Bureau of Land Management (1004-0137), Bureau Information Collection Clearance Officer, (WO-630), Mail Stop 401 LS, 1849 C St., N.W., Washington D.C. 20240

# Coleman Oil & Gas, Inc.

# <u>Work-over</u> Blanco Mesa Verde Formation

Friday, June 08, 2012

Well:

Juniper West SWD #1

Field:

SWD: Mesa Verde

Location:

700' FSL & 1715' FWL (SESW)

San Juan County, New Mexico

Elevation:

6446' RKB 6436' GL

Sec 24, T24N, R11W, NMPM

Lease:

NMNM 104609

By:

Michael T. Hanson

# Reason for Work-over: Communication between Tubing & Casing.

- 1. Notified OCD Aztec District Office of Work-over.
- 2. Tested Rig Anchors. MIRU Slick Line and RIH with sinker bar and tagged up. Set Plug in F Nipple.
- 3. May 7, 2012, MIRU Work-over Unit, POOH with PVC Lined Tubing, On-Off Tool and Packer.
- 4. Picked up work string and cleaned out to PBTD.
- 5. Treated injection interval with 2000 Gallons 15% HCL with additives.
- 6. Laid down work string.
- 7. TIH with re-dressed packer and on-off tool on 2 7/8" PVC Lined Tubing. Set Packer at 2385.74 FT KB.
- 8. May 11, 2012, Rigged Down and released work-over rig.
- May 11, 2012, Tested Annulus with Third Party Tester and OCD inspector. Tested
   Annulus to 500 psig and held for thirty minutes.
- 10. May 11, 2012, Put well back on Injection.
