13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

By Order No. DHC-1606-AZ dated 8/23/04, the Division approved CDX Rio LLC's request to downhole commingle the Basin-Dakota and Blanco-Mesaverde Gas Pools within the subject well. This work was never done at that time. Enervest Operating, L.L.C., now requests that Order No. DHC-1606-AZ be reinstated, or a new order issued for the following work.

The well is currently completed in and producing from the Basin-Dakota Gas Pool. Enervest proposes to complete the Blanco-Mesaverde Gas Pool and downhole commingle the production from these intervals. Pre-approval status for the Basin-Dakota and Blanco-Mesaverde Gas Pools was authorized by Order No. R-11363. In support of this request, Enervest states that:

Pools to be downhole commingled: Basin-Dakota & Blanco-Mesaverde Gas Pools

The proposed commingling will not reduce the total remaining production's value

The well is currently perforated in the Basin-Dakota Gas Pool from 7,146'-7,442'. Mesaverde proposed perfs: 5,090'-5,328'

Production allocation for the two pools will be determined by the subtraction method

Interest ownership between the pools is common. No notification is necessary
