	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	<b>Sundry</b>
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Attached is a drawing for the placement of the cathodic ground, rectifier and cable for the subject well.

## Bunny ET AL #1M

Section 10, T27N, R9W, N.M.P.M., San Juan County, NM

Drill ground bed approximately 156' north east of Bunny ET AL #1M well head at staked location. Install dual well solar at staked location. Install cable to new ground bed and to Bunny ET AL #1M well head at lengths below. The well is on a wash so we will have sand. It will probably take 60 to 100 feet of casing but should have no rocks.

Bunny ET AL #1M Cables:

Negative: 150'

Positive: 15'

Total Ditch: 165'
